COLLECTIONS OF THE
CZECH CAPITAL

Monday 10 - Friday 14 September 2018

Possibly the most beautiful city of Central Europe, the capital of Bohemia boasts an astonishingly rich cultural history and a wealth of magnificent art and architecture. The city nestles on the banks of the River Vltava, its high hills topped by castles and with numerous church spires reaching skywards. During its long history, Prague has experienced two golden ages of art and architecture; a gothic period under the Holy Roman Emperor Charles VI, and a baroque period during the Habsburg Counter Reformation.
